Political Juggernauts

Introduction:

Overview

Our project topic is Political Juggernauts: A Quantitative Analysis of candidates in the 2019 Lok Sabha Elections. We create several data analysis by the given data about Political Juggernauts.
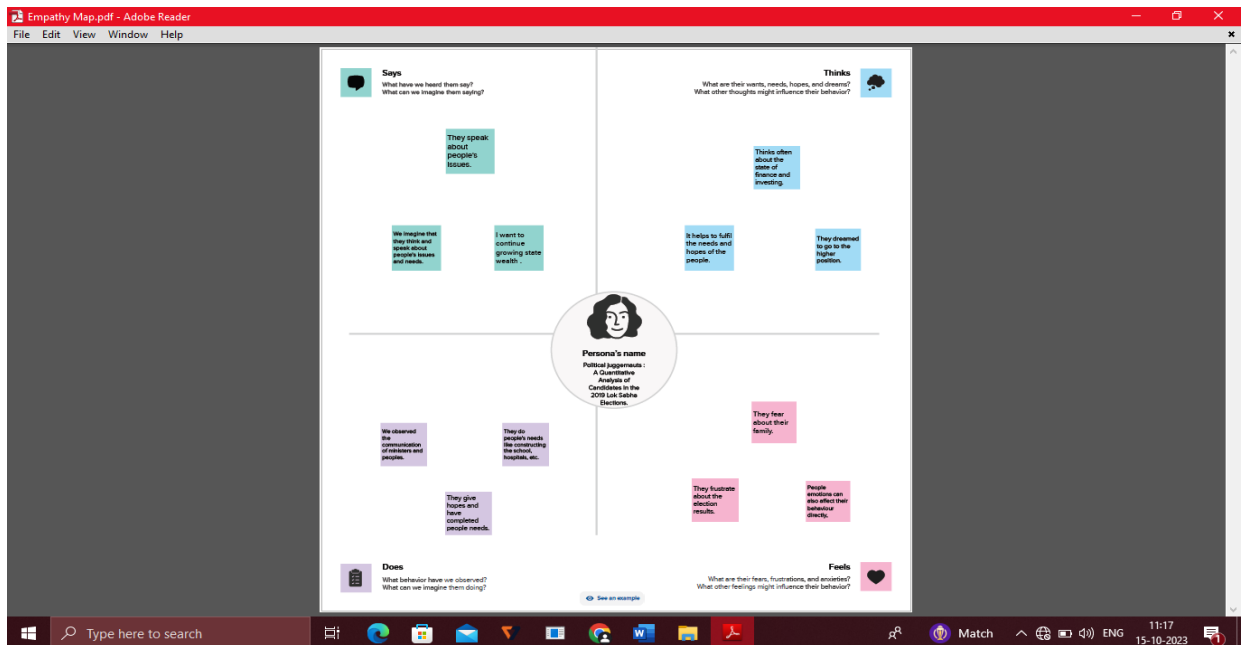

Purpose

We learned some basic concepts about the Tableau and Data Analysis by this project.

## Problem Definition & Design Thinking:

Empathy Map:

In Empathy Map, we included several questions asked by the people about Political Juggernauts. By this, Empathy Map we have clarified and analysed the people's doubts about Political Juggernauts.

Ideation & Brainstorming Map:

In Brainstorming Map, we have explained the various problems suffered by the people and political issues available in the election party. By this Brainstorming Map, the people can easily get the knowledge about this election.

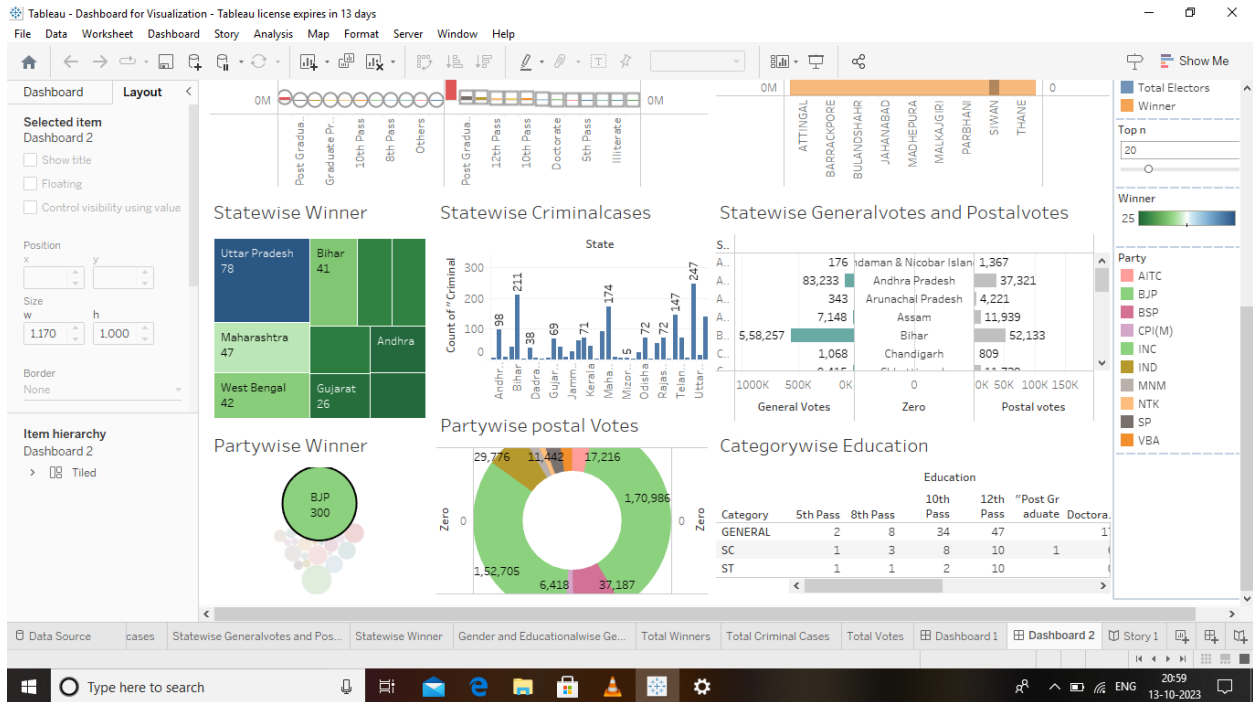

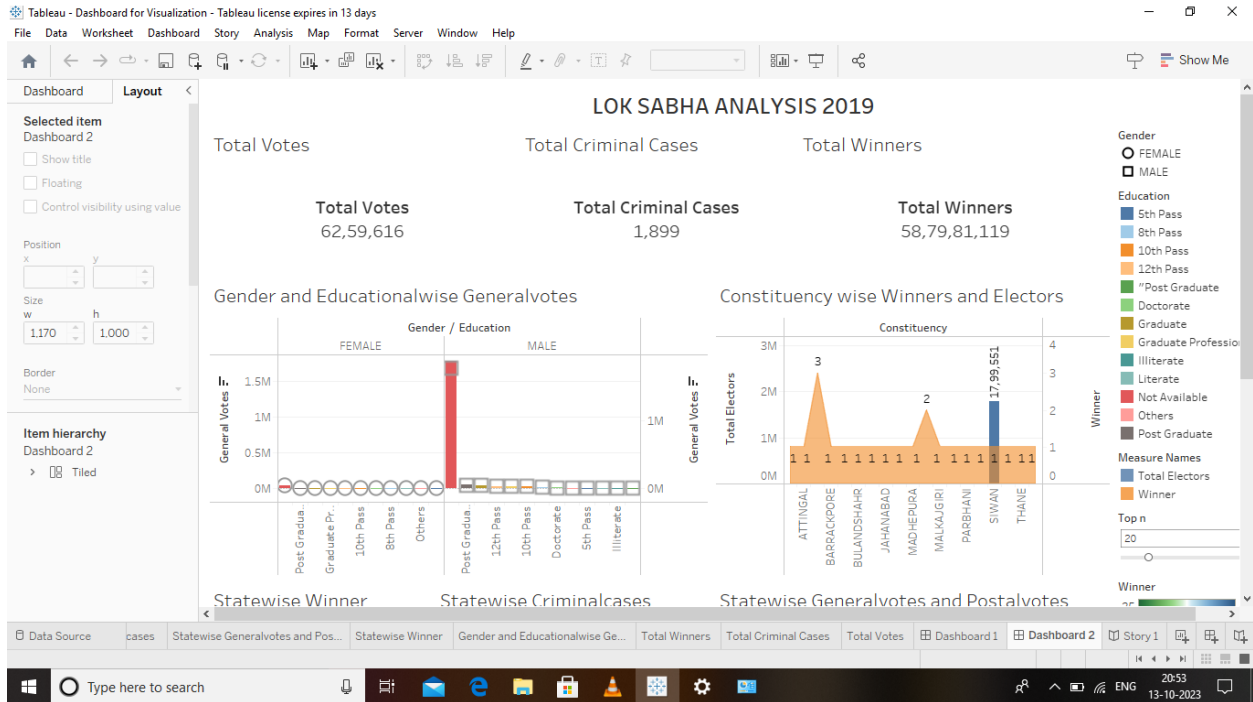

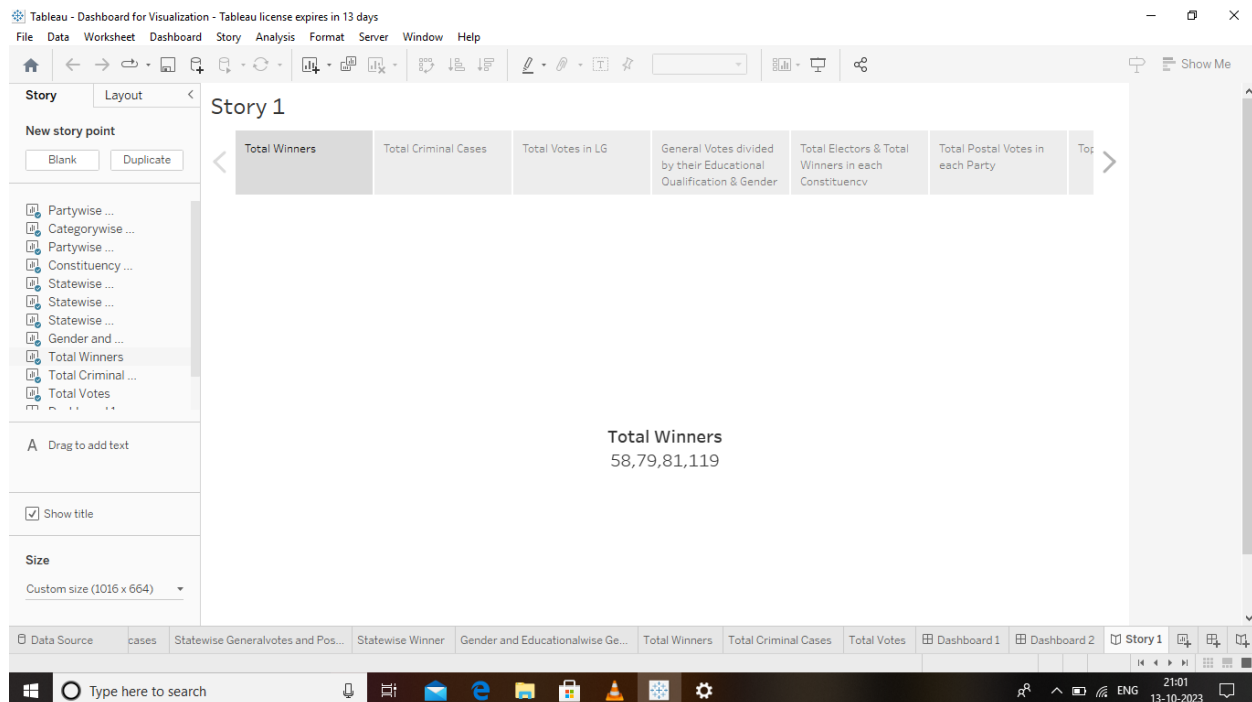

Result:

Finally we can analyse all the information about the elections and the electors such as Party members, Postal Votes, General Votes, Winners, Education, Categories, Criminal Cases, Total Electors all over all the India etc.,

From these information's we have created a Dashboard and the story from the Data collected by the Dataset by the help of Tableau.

Dashboard

Advantages & Disadvantages:

- We learned more knowledge about elections.
- It helps in proper functioning of democracy through the system of checks and balances.
- Money Bills can be only introduced in Lok Sabha.
- Members are directly elected by the people.
- It controls the despotism of the Government.
- Motions of no confidence against the government can be introduced and passed in the Lok Sabha.
- It helps the nation to increase the wealth.
- There are no disadvantages for people in the Lok Sabha.

Applications:

- ❖ They hold their seats for five years.
- ❖ 543 seats are filled by the election members.
- ❖ It has certain powers that make it more powerful than the Rajya Sabha.
- ❖ We can analyse several information such as Election party, Criminal cases, Gender, Educations, Category, Symbols, General Votes, Postal Votes, Winners etc.

Conclusion:

From this Project, we got more details about Data Analytics and how to work in Tableau. It will help us for our Future studies.

Future ideas:

- o Minimum degree graduated and 21 aged persons should be selected for election
- o In future, Lok Sabha meetings can also be conducted in online and also in live stream to know the people about what they are talking in the meetings.
- o Knowledgeable persons and powerful persons should be elected as the member. This may help to improve our growth and the country to be developed.
